

MUSIC MILESTONES - SOUND LEISURE AND SOUNDNET

SOUND Leisure, along with its music supply partner Soundnet, has launched a new model of jukebox called Music Milestones. The company's jukeboxes featuring Milestones in Music technology have been widely adopted across the UK pub market over the last six years. The new unit features online connectivity to enable uploading of tracks, as well as the company's OpWeb online management systems. It also offers a D4 - Digital 4 channel amplifier that has previously been included in SL's Pulse and VenueHub range. The company's Milestones in Music PC, LCD and touchscreen hardware are all included in the new package. "The Milestones technology has become the bedrock of the British pub over the past six years, not only because of the bullet-proof technology but also because the end users love it," said Sound Leisure's Chris Black. "Over the next few months other exciting developments will be released for the Milestones In Music technology to further cement it as a fantastic long-term product."

FUN FAIR BASH - UNIS AND INSTANCE AUTOMATICS

UNIS debuted its new FunFair Bash game at EAS in France in September, where it was very well received. Ian Eason, managing director of Instance Automatics, UK distributor for UNIS, visited the company's booth and is sure that the game - the first in its Carnival Series - is going to be a fantastic hit within Europe and the UK. "FunFair Bash has multi-tiered levels rewarding skillful gameplay," he said. "It has loads of potential for earnings and it wins on both the traditional and contemporary style, using real soft balls to hit the targets on the digital screen." Instance Automatics has been the official distributor in the UK for UNIS for over 12 months.

MONSTER HIGH TATTOOS - ALLSTAR VENDING

BASED on the phenomenally successful line of monster-styled Barbie dolls, Mattel's Monster High is a huge hit with tween and teen girls, both online and in stores. Monster High brings together the cool teenage descendants of the world's most famous monsters to brave the trials and tribulations of high school. Grounded in a fun storyline, the fashionable monster students capture all the awkward moments that teens experience, the bonds of friendship and the challenges of fitting in. There are over one million fans on the Monster High Facebook page and over four million viewers of the web series on YouTube. The 10 tattoos in the collection from Allstar Vending feature the Monster High characters and come with accent tattoos, such as hearts, and monster-inspired fashion accessories.

SLOTTO CHANGE MACHINE - JNC SALES

JNC Sales presented its new Slotto Change Machine at the Euro Attractions Show in Paris, France, in September. This was built as a result of the requirement for low cost 2p change machines due to a shortage of them in the market. The new machine, built into the cabinet of a slot machine, generated a great deal of interest at the event, JNC's Gary Newman said. Describing the machine as "safe and secure," he explained that it has been equipped with two hoppers and is available to process either pounds or euros. "The capacity is immense," he said. Having been built within a gaming machine cabinet, it is designed to blend in with the operator's other equipment, he added.
