## DRGT wins South African bingo deal

THE Wild Coast Winter Games event held in South Africa in July proved successful for Belgium's DRGT – the systems specialist announced an agreement with bingo operator Boss Gaming.

Boss Gaming has chosen to deploy DRGT's ticketing and gaming management solution at bingo sites in Port Elizabeth and East London, initially connecting a total of 328 bingo devices.

"With its plug-and-play scalability and the proven reliability of the platform with tickets or cards in such diverse environments, we are looking forward to unleashing the power of the DRGT ticket-in, ticket-out promotions capability to deliver a truly outstanding guest experience," said Boss Gaming's Dave Winter.

Installation of the DRGT system will be completed this month.

Jurgen De Munck, co-founder and CEO of DRGT, added: "As the industry's fastest growing systems company, it's essential to develop systems for local needs."

## Autumn Coin-op Show filling up

AHEAD of the first Autumn Coin-op Show in London, the organisers have revealed that there are now only a handful of stands still available.

The event, which is taking place at Chelsea Football Club on October 15-16, has received the backing of a number of key exhibitors and visitor pre-registrations are also high, Swan Events said. Early pre-registration guarantees admission to the celebratory First Night Party to be held at Frankie's, a popular sports bar and diner.

Concept Games, 24 Seven Gaming and InterClub Lotteries are the latest names to come on board.

The UK-focused event is intended to provide an informal networking event before the large trade shows in the new year.

The organisers of the new Autumn Coin-op Show are urging those thinking of attending to register early for the event.

## UNIS showcases development at ChinaJoy

AMUSEMENT equipment company UNIS exhibited at the 12th ChinaJoy show in Shanghai from July 31 to August 3.

*Amusement* reports that three independently developed mobile games, Super Fruit Mania, Magic Water Kingdom and Raiders were on display at ChinaJoy.

The show, which covers the digital entertainment industry, was held at the Shanghai New International Expo Centre and, with around 180,000 people in attendance, was one of the largest events of its kind anywhere in the world.

## Amusement companies gear up for Kazak show

MORE than 40 companies have signed up to participate in the Duman Show Tech 2014, the amusement industry trade show to be held in Kazakhstan.

The event, which is taking place on October 9-11 at the Atakent Exhibition Centre in Almaty, provides an opportunity to see the latest equipment for the local amusements, gaming, leisure and entertainment sectors. Those exhibiting at the show are drawn from Kazakhstan, Russia, Belarus, Kyrgyzstan, Italy and Malta.

During the show, there will also be a programme of workshops and presentations from leading experts in the field, with particular focus on the future of the amusement industry and the development of digital technologies.

## Innovative Technology heads to jobs show

HAVING announced plans to open a new office in Milton Keynes, Innovative Technology will be at the MK Jobs Show this month as it continues to its recruitment drive.

The UK-based banknote validator manufacturer was recently named the 13th fastest growing private business in Britain by the *Sunday Times* and won its third Queen's Award for Enterprise earlier this year. Its head office is located in Oldham, near Manchester.

"The new office in Milton Keynes will allow us to strengthen our research and development team, working on blue chip projects to ensure we continue to live up to our name, producing innovative, technologically advanced products for the cash handling industry," said recruitment manager Carole Harker.

It is now seeking to recruit mechanical and electronic design engineers to join its expanding development team.

"We will be at MK:One for the MK Jobs Show on September 20-21 and look forward to introducing Innovative Technology and our career opportunities to Milton Keynes," Harker added.

Innovative Technology presently has offices in Europe, Asia and South America, as well as trading partners across the world. It has more than three million units in the field and, with the ongoing expansion of its UK and China operations, it now employs over 250 staff.
